

KelpGreen

from *Ascophyllum Nodosum*

Organic - No GMOs

KelpGreen is derived from *Ascophyllum Nodosum* Kelp extract that is an excellent complement to any feeding program. It can be used in conjunction with a wide variety of fertilizers as either a foliar feed or root drench.

APPLICATION GUIDELINES: Use 2.5ml - 5ml per gallon. For optimum results apply as a foliar spray, through irrigation systems and as a root drench in conjunction with Pure Protein Dry 15-1-1.

Storage & Use: Apply at temperatures between 50°F and 90°F (10°C to 35°C). Store at those temperatures, **use all mixture - do not store mixed product.** Use within 12 months of purchase.

**No
GMOs!**

CAUTION: For personal protection
use eye protection & gloves.
